CARINGINFO

CaringInfo, a program of the National Hospice and Palliative Care Organization (NHPCO), is a national consumer engagement initiative to improve care at the end of life.

It's About How You LIVE

It's About How You LIVE is a national community engagement campaign encouraging individuals to make informed decisions about end-of-life care and services. The campaign encourages people to:

- L**earn about options for end-of-life services and care
- I**mplement plans to ensure wishes are honored
- V**oice decisions to family, friends and health care providers
- E**ngage in personal or community efforts to improve end-of-life care

Note: The following is not a substitute for legal advice. While CaringInfo updates the following information and form to keep them up-to-date, changes in the underlying law can affect how the form will operate in the event you lose the ability to make decisions for yourself. If you have any questions about how the form will help ensure your wishes are carried out, or if your wishes do not seem to fit with the form, you may wish to talk to your health care provider or an attorney with experience in drafting advance directives. **If you have other questions regarding these documents, we recommend contacting your state attorney general's office.**

Using these Materials

BEFORE YOU BEGIN

1. Check to be sure that you have the materials for each state in which you may receive health care.
2. These materials include:
 - Instructions for preparing your advance directive, please read all the instructions.
 - Your state-specific advance directive forms, which are the pages with the gray instruction bar on the left side.

ACTION STEPS

1. You may want to photocopy or print a second set of these forms before you start so you will have a clean copy if you need to start over.
2. When you begin to fill out the forms, refer to the gray instruction bars — they will guide you through the process.
3. Talk with your family, friends, and physicians about your advance directive. Be sure the person you appoint to make decisions on your behalf understands your wishes.
4. Once the form is completed and signed, photocopy the form and give it to the person you have appointed to make decisions on your behalf, your family, friends, health care providers and/or faith leaders so that the form is available in the event of an emergency.
5. You may also want to save a copy of your form in an online personal health records application, program, or service that allows you to share your medical documents with your physicians, family, and others who you want to take an active role in your advance care planning.

Introduction to Your Minnesota Health Care Directive

This packet contains a legal document, the Minnesota Health Care Directive, that protects your right to refuse medical treatment you do not want, or to request treatment you do want, in the event you lose the ability to make decisions yourself. You may complete Part I, Part II, or both, depending on your advance planning needs. You must complete Part III.

Part I, Appointment of Health Care Agent, lets you name someone to make decisions about your health care—including decisions about life support—if you can no longer speak for yourself, or immediately, if you specify this in the document. The appointment of health care agent is especially useful because it appoints someone to speak for you any time you cannot make your own medical decisions, not only at the end of life.

Unless you specify that your agent's powers go into effect immediately in the additional instructions section on page 3 of the form, your agent's authority goes into effect when your doctor determines that you are no longer able to make or communicate the health care decision at issue. If you are still capable of making some, but not all, health care decisions, your agent is only authorized to make those decisions that you are incapable of making.

Part II, Health Care Instructions, functions as your living will. It lets you state your wishes about health care in the event that you can no longer make your own health care decisions. If you are still capable of making some, but not all, health care decisions, your instructions apply only to make those decisions that you are incapable of making.

Your health care instructions go into effect when your doctor determines that you are no longer able to make or communicate your health care decisions.

Part III contains the signature and witness provisions so that your document will be effective.

This form does not expressly address mental illness. If you would like to make advance care plans regarding mental illness, you should talk to your physician and an attorney about a durable power of attorney or other directive tailored to your needs.

Note: This documents will be legally binding only if the person completing it is a competent adult who is 18 years of age or older.

Completing Your Minnesota Health Care Directive

How do I make my Health Care Directive legal?

In order to make your health care directive legally binding you have two options:

1. Sign your document in the presence of two witnesses, who must also sign the document. Neither of your witnesses can be:
 - under the age of 18, or
 - the person you appointed as your agent or alternate agent,

In addition, at least one of your witnesses must be someone who is not your health care provider or an employee of your health care provider.

OR

2. Sign your document in the presence of a notary public. The person notarizing your health care directive may be an employee of a health care provider providing you with direct care but cannot be the person you appointed as your agent or alternate agent.

Whom should I appoint as my agent?

Your agent is the person you appoint to make decisions about your health care if you become unable to make those decisions yourself. Your agent may be a family member or a close friend whom you trust to make serious decisions. The person you name as your agent should clearly understand your wishes and be willing to accept the responsibility of making health care decisions for you.

You can appoint a second person as your alternate agent. The alternate will step in if the first person you name as an agent is unable, unwilling, or unavailable to act for you.

You **cannot** appoint the following persons as your agent unless they are related to you by blood, marriage, registered domestic partnership, or adoption, unless you specifically say otherwise in your Directive:

- a health care provider providing care to you on the date you sign your directive;
- an employee of your health care provider on the date you sign your directive.

Should I add personal instructions to my Appointment of Health Care Agent?

One of the strongest reasons for naming an agent is to have someone who can respond flexibly as your health care situation changes and deal with situations that you did not foresee. If you add instructions to this document it may help your agent carry out your wishes, but be careful that you do not unintentionally restrict your agent's power to act in your best interest. In any event, be sure to talk with your agent about your future medical care and describe what you consider to be an acceptable "quality of life."

What if I Change My Mind?

You may revoke your health care directive using any one of the following methods:

- sign a new directive that is inconsistent with your prior directive;
- cancel, deface, obliterate, burn, tear or otherwise destroy your directive, or direct another person in your presence to destroy the directive, with the intent to revoke the directive in whole or in part,
- sign a written and dated statement indicating that you wish to revoke your Directive, in whole or in part, or
- verbally express your intent to revoke your Directive, in whole or in part, in the presence of two witnesses who do not have to be present at the same time.

If you appoint your spouse or domestic partner as your health care agent, that appointment will automatically be revoked in the event proceedings are commenced for dissolution, annulment, or termination of your marriage or registered partnership, unless you specifically say otherwise in your directive in the additional instructions section on page 3.

I, _____,
understand this document allows me to do ONE or BOTH of the following:

PART I: Name another person (called the health care agent) to make health care decisions for me if I am unable to decide or speak for myself. AND/OR

Part II: Give health care instructions to guide others making health care decisions for me. If I have named a health care agent, these instructions are to be used by the agent. These instructions may also be used by my health care providers, others assisting with my health care and my family, in the event I cannot make decisions for myself.

If I have not given health care instructions, then my agent must act in my best interest.

Whenever I am unable to decide or speak for myself, my health care agent has the power to:

(A) Make any health care decision for me. This includes the power to give, refuse, or withdraw consent to any care, treatment, service, or procedures. This includes deciding whether to stop or not start health care that is keeping me or might keep me alive, and deciding about intrusive mental health treatment.

(B) Choose my health care providers.

(C) Choose where I live and receive care and support when those choices relate to my health care needs.

(D) Review my medical records and have the same rights that I would have to give my medical records to other people.

However, if you chose not to appoint an agent in Part I, you **MUST** complete some or all of this Part II if you wish to make a valid health care directive.

These are instructions for my health care when I am unable to decide or speak for myself. These instructions must be followed (so long as they address my needs).

You Have Filled Out Your Health Care Directive, Now What?

1. Your Minnesota Health Care Directive is an important legal document. Keep the original signed document in a secure but accessible place. Do not put the original document in a safe deposit box or any other security box that would keep others from having access to it.
2. Give photocopies of the signed original to your agent and alternate agent, doctor(s), family, close friends, clergy, and anyone else who might become involved in your health care. If you enter a nursing home or hospital, have photocopies of your document placed in your medical records.
3. Be sure to talk to your agent(s), doctor(s), clergy, family, and friends about your wishes concerning medical treatment. Discuss your wishes with them often, particularly if your medical condition changes.
4. You may also want to save a copy of your form in an online personal health records application, program, or service that allows you to share your medical documents with your physicians, family, and others who you want to take an active role in your advance care planning.
5. If you want to make changes to your documents after they have been signed and witnessed, you must complete a new document.
6. Remember, you can always revoke your Minnesota document.
7. Be aware that your Minnesota document will not be effective in the event of a medical emergency. Ambulance and hospital emergency department personnel are required to provide cardiopulmonary resuscitation (CPR) unless they are given a separate directive that states otherwise. These directives called "prehospital medical care directives" or "do not resuscitate orders" are designed for people whose poor health gives them little chance of benefiting from CPR. These directives instruct ambulance and hospital emergency personnel not to attempt CPR if your heart or breathing should stop.

Currently not all states have laws authorizing these orders. We suggest you speak to your physician if you are interested in obtaining one. **CaringInfo does not distribute these forms.**
