VERMONT Advance Directive Planning for Important Healthcare Decisions

Courtesy of CaringInfo www.caringinfo.org

CaringInfo, a program of the National Alliance for Care at Home (the Alliance), is a national consumer engagement initiative to improve care and the experience of caregiving during serious illness and at the end of life. As part of that effort, CaringInfo provides detailed guidance for completing advance directive forms in all 50 states, the District of Columbia, and Puerto Rico.

This package includes:

- Instructions for preparing your advance directive. Please read all the instructions.
- Your state-specific advance directive forms, which are the pages with the gray instruction bar on the left side.

BEFORE YOU BEGIN

Check to be sure that you have the materials for each state in which you may receive healthcare. Because documents are state-specific, having a state-specific document for each state where you may spend significant time can be beneficial. A new advance directive is not necessary for ordinary travel into other states. The advance directives in this package will be legally binding only if the person completing them is a competent adult who is 18 years of age or older, or an emancipated minor.

ACTION STEPS

- 1. You may want to photocopy or print a second set of these forms before you start so you will have a clean copy if you need to start over.
- 2. When you begin to fill out the forms, refer to the gray instruction bars they will guide you through the process.
- 3. Talk with your family, friends, and physicians about your advance directive. Be sure the person you appoint to make decisions on your behalf understands your wishes.
- 4. Once the form is completed and signed, photocopy, scan, or take a photo of the form and give it to the person you have appointed to make decisions on your behalf, your family, friends, healthcare providers, and/or faith leaders so that the form is available in the event of an emergency.

Copyright © 2005 National Alliance for Care at Home. All rights reserved. Revised 2024. Reproduction and distribution by an organization or organized group without the written permission of the National Alliance for Care at Home is expressly forbidden.

- 5. You may also want to save a copy of your form in your electronic healthcare record, or an online personal health records application, program, or service that allows you to share your medical documents with your physicians, family, and others who you want to take an active role in your advance care planning.
- 6. Vermont maintains an Advance Directive Registry. By filing your advance directive with the registry, your healthcare provider and loved ones may be able to find a copy of your advance directive in the event you are unable to provide one. You can read more about the registry, including instructions on how to file your advance directive, at https://www.healthvermont.gov/systems/advance-directives/create-register-and-make-changes-advance-directive.

INTRODUCTION TO YOUR VERMONT ADVANCE HEALTH CARE DIRECTIVE

This packet contains a legal document, a **Vermont Advance Directive**, that protects your right to refuse medical treatment you do not want, or to request treatment you do want, in the event you lose the ability to make decisions yourself. You may complete and or all of the parts of this advance directive, depending on your advance-planning needs. **You must complete Part10**.

Part 1. Appointment of an Agent. This part lets you name an adult, your "agent," to make decisions about your medical care—including decisions about life-sustaining procedures—if you can no longer speak for yourself. This is especially useful because it appoints someone to speak for you any time you are unable to make your own medical decisions, not only at the end of life.

Part 2 allows you to specify who may and may not be involved in determining your health care.

Part 3 allows you to record a statement of your values and goals to help guide your health care.

Part 4 allows you to record your health care treatment wishes if you are close to death or are unconscious and unlikely to become conscious again.

Part 5 allows you to record your wishes for treatment other than at the end of life.

Part 6 allows you to record your wishes regarding organ and tissue donation.

Part 7 allows you to appoint an agent for the disposition of your remains and to record your wishes regarding the final disposition of your remains.

Part 8 allows you to record any other advance planning consideration that you do not feel is adequately covered by the other parts.

Part 9 allows you to record any health care you wish to permit the individual you chose to make decisions regarding your health to approve or disapprove over your objection during a time of incapacity (excluding end-of-life care). **Note:** completing this Part is optional.

Part 10 contains the witnessing and signature provisions to make your document effective.

How do I make my Vermont Advance Health Care Directive legal?

In Part 10, you must sign and date your document in front of two witnesses, aged 18 or older. Neither witness can be your spouse, agent, parent, brother, sister, child, grandchild, or reciprocal beneficiary. The witnesses may be remote if you are engaged in live, interactive communication by video or telephone and the remote witnesses' name, contact information, and relation to you is included on your document.

If you are in a hospital, nursing home, or residential care facility when you complete your advance directive, you will need a third person's signature to certify that he or she has explained the advance directive to you and that you understand the impact and effect of what you are doing. This third person may be a hospital designee, a long-term care ombudsman, an attorney licensed to practice in Vermont, a clergyperson, or a probate division of the superior court designee.

Whom should I appoint as my agent?

Your agent is the person you appoint to make decisions about your healthcare if you become unable to make those decisions yourself. Your agent may be a family member or a close friend whom you trust to make serious decisions. The person you name as your agent should clearly understand your wishes and be willing to accept the responsibility of making healthcare decisions for you.

You can appoint a second and third person as your alternate agents. An alternate agent will step in if the person(s) you name as agent is/are unable, unwilling, or unavailable to act for you.

You cannot appoint your doctor or other health care clinician to be your agent. If you are in a residential facility, a health care facility, or a correctional facility, an owner, operator, employee and/or contractor of the facility cannot be your agent unless such person is related to you by blood, marriage, civil union, or adoption.

Part 7 allows you to appoint a person, also called an agent, to oversee the final disposition of your remains. This person may not be an unrelated funeral director, crematory operator, cemetery operator or an employee of a funeral director, crematory operator, or cemetery operator. He or she also may not be an unrelated employee or representative of an organ procurement organization.

Should I add personal instructions to my advance directive?

Yes! One of the most important reasons to execute an advance directive is to have your voice heard. When you name an agent and clearly communicate to them what you want and don't want, they are in the strongest position to advocate for you. Because the future is unpredictable, be careful that you do not unintentionally restrict your agent's power to act in your best interest. Be especially careful with the words "always" and "never." In any event, be sure to talk with your agent and others about your future healthcare and describe what you consider to be an acceptable "quality of life."

When does my agent's authority become effective?

Your agent's authority will become effective:

- When your physician determines that you no longer have the **capacity** to make health care decisions, such as when you are unconscious or cannot communicate, and your physician has made reasonable efforts to notify you and your agent of such determination; or
- **Immediately** upon signing the advance directive if you so specify; or
- When a **condition** you specify is met, such as diagnosis of a debilitating disease such as Alzheimer's Disease or serious mental illness; or
- When an **event** occurs that you want to mark the start of your agent's authority, such as when you move to a nursing home or other institution.

You retain the primary authority for your healthcare decisions as long as you are able to make your wishes known.

Agent Limitations

Your agent does not have the authority to consent to voluntary sterilization.

Your agent will be bound by the current laws of Vermont as they regard pregnancy and termination of pregnancies.

What if I change my mind?

You may revoke your Advance Directive by completing a new advance directive.

You may revoke or suspend all or part of your Advance Directive by doing any of the following things:

- 1. Signing a statement suspending or revoking the designation of your agent;
- 2. Personally informing your doctor and having him or her note that on your record;
- 3. By burning, tearing, or obliterating the Advance Directive either personally or at your direction when you are present;
- 4. For any provision (other than designation of your agent), when you state orally or in writing, or indicating by any other act of yours that your intent is to suspend or revoke any Part or statement contained in your Advance Directive; or
- 5. By executing a new Advance Directive.

Mental Health Issues

These forms do not *expressly* address mental illness, although you can state your wishes and grant authority to your agent regarding mental health issues. The National Resource Center on Psychiatric Advance Directives maintains a website (<u>https://nrc-pad.org/</u>) with links to each state's psychiatric advance directive forms. If you would like to make more detailed advance care plans regarding mental illness, you could talk to your physician and an attorney about a durable power of attorney tailored to your needs.

What other important facts should I know?

You may expressly provide in your Advance Directive that, in the event you lack capacity to make health care decisions, your agent may authorize or withhold health care over your objection. In order for this provision to be effective, the following must occur:

- 1. You must name an agent in your Advance Directive;
- 2. Your agent must accept in writing the responsibility for authorizing or withholding health care over your objection;
- 3. Your physician must sign this provision and affirm that you understood the benefits, risks, and alternatives of such a provision;
- 4. A long-term care ombudsman, an attorney licensed to practice in Vermont, a clergyperson, or a probate division of the superior court designee must sign a statement affirming that he or she has explained the provision to you and you appear to understand the provision and are free from duress or undue influence (this person must be a disinterested party and independent of the hospital if you are in the hospital when the provision is executed);
- 5. You must specify the treatments to which this provision applies; and
- 6. You must acknowledge that you are knowingly and voluntarily waiving the right to refuse or receive treatment at a time of incapacity, as determined by your physician and one other physician.

If you decide to include language regarding care given over your objection, you may wish to speak with your health care provider or an attorney with experience in drafting advance directives regarding this language. Any such language may be included in Part 9 of the Vermont Advance Directive.

Be aware that your advance directive will not be effective in the event of a medical emergency, except to identify your agent. Ambulance and hospital emergency department personnel are required to provide cardiopulmonary resuscitation (CPR) unless you have a separate physician's order, which are typically called "prehospital medical care directives" or "do not resuscitate orders." DNR forms may be obtained from your state health department or department of aging (<u>https://www.hhs.gov/aging/state-resources/index.html</u>). Another form of orders regarding CPR and other treatments are state-specific POLST (portable orders for life sustaining treatment) (<u>https://polst.org/form-patients/</u>). Both a POLST and a DNR form MUST be signed by a healthcare provider and MUST be presented to the emergency responders when they arrive. These directives instruct ambulance and hospital emergency personnel not to attempt CPR (or to stop it if it has begun) if your heart or breathing should stop.

PART 9 – CERTAIN ACTIONS OVER MY OBJECTIONS (OPTIONAL)

The power of my agent shall include the following [initial all that apply]:

1. To authorize my admission to a health care facility for the treatment of mental illness for no more than 10 calendar days, even over my objection, if a physician on the staff of or designated by the proposed admitting facility examines me and states in writing that I have a mental illness and I am incapable of making an informed decision about my admission, and that I need treatment in the facility; and to authorize my discharge (including transfer to another facility) from the facility.

2. To authorize the specific types of health care identified in this advance directive below even over my protest (attach additional pages if needed):

3. To continue to serve as my agent even in the event that I protest the agent's authority after I have been determined to be incapable of making an informed decision.

I am knowingly and voluntarily waiving the right to refuse or receive treatment at the time of incapacity, and I understand that a clinician will determine capacity. My agent hereby accepts such responsibility: ______.

My clinician hereby attests that he/she was physically present during the execution of Part 9 and that I understand the risks, benefits, and alternatives to the health care being accepted or rejected: ______.

An individual as required by 18 V.S.A. § 9707(h)(1)(D) was physically present during the execution of Part 9 and explained the nature and effect of this provision and hereby attests that I appear to understand and be free from duress or undue influence: ______.
