CaringInfo, a program of the National Hospice and Palliative Care Organization (NHPCO), is a national consumer engagement initiative to improve care and the experience of caregiving during serious illness and at the end of life. As part of that effort, CaringInfo provides detailed guidance for completing advance directive forms in all 50 states, the District of Columbia, and Puerto Rico.

This package includes:
• Instructions for preparing your advance directive. Please read all the instructions.
• Your state-specific advance directive forms, which are the pages with the gray instruction bar on the left side.

BEFORE YOU BEGIN

Check to be sure that you have the materials for each state in which you may receive healthcare. Because documents are state-specific, having a state-specific document for each state where you may spend significant time can be beneficial. A new advance directive is not necessary for ordinary travel into other states. The advance directives in this package will be legally binding only if the person completing them is a competent adult who is 18 years of age or older, or an emancipated minor.

ACTION STEPS
1. You may want to photocopy or print a second set of these forms before you start so you will have a clean copy if you need to start over.

2. When you begin to fill out the forms, refer to the gray instruction bars — they will guide you through the process.

3. Talk with your family, friends, and physicians about your advance directive. Be sure the person you appoint to make decisions on your behalf understands your wishes.

4. Once the form is completed and signed, photocopy, scan, or take a photo of the form and give it to the person you have appointed to make decisions on your behalf, your family, friends, healthcare providers, and/or faith leaders so that the form is available in the event of an emergency.

5. You may also want to save a copy of your form in your electronic healthcare record, or an online personal health records application, program, or service that allows you to share your medical documents with your physicians, family, and others who you want to take an active role in your advance care planning.

**INTRODUCTION TO YOUR WYOMING ADVANCE HEALTH CARE DIRECTIVE**

This packet contains a legal document, the **Wyoming Advance Health Care Directive**, that protects your right to refuse medical treatment you do not want, or to request treatment you do want, in the event you lose the ability to make decisions yourself.

**Part 1**, the **Wyoming Power of Attorney for Health Care**, lets you name someone, called your “agent,” to make decisions about your health care—including decisions about life support—if you can no longer speak for yourself, or immediately if you specify this in your document. The Power of Attorney for Health Care is especially useful because it appoints someone to speak for you any time you lack the capacity to make your own health care decisions, not only at the end of life.

**Part 2**, the **Wyoming Instructions for Health Care**, functions as your state’s living will. It lets you state your wishes about health care in the event that you lack the capacity to make your own health care decisions.

**Part 3**, **Donation of Organs at Death**, is an optional section that authorizes the donation of your organs at death.

**Part 4**, **Primary Physician**, is an optional section that allows you to designate your primary physician.

**Part 5**, **Execution**, contains the signature and witnessing provisions to make your advance health care directive valid.

You must complete Part 1, Part 2, or both, depending on your advance-planning needs in order to have a valid advance health care directive. Part 3 and Part 4 are optional. You must complete Part 5.

**How do I make my Wyoming Advance Health Care Directive legal?**

You must sign and date your advance directive or direct someone to do so for you if you are unable to sign it yourself. Your signature must be witnessed by a notary public or by two witnesses. If witnessed, your witnesses may not be:
- your treating health care provider or an employee of the provider;
- your agent, if you appoint one;
- the operator of a community care facility or employee of the operator or facility; or
- the operator of a residential care facility or employee of the operator or facility.
Whom should I appoint as my agent?

Your agent is the person you appoint to make decisions about your healthcare if you become unable to make those decisions yourself. Your agent may be a family member or a close friend whom you trust to make serious decisions. The person you name as your agent should clearly understand your wishes and be willing to accept the responsibility of making healthcare decisions for you.

You can appoint a second person as your alternate agent. The alternate will step in if the first person you name as an agent is unable, unwilling, or unavailable to act for you.

Your agent cannot be an owner, operator, or employee of a residential or community care facility at which you are receiving care, unless that person is related to you by blood, marriage, or adoption.

Should I add personal instructions to my advance health care directive?

Yes! One of the most important reasons to execute an advance directive is to have your voice heard. When you name an agent and clearly communicate to them what you want and don’t want, they are in the strongest position to advocate for you. Because the future is unpredictable, be careful that you do not unintentionally restrict your agent’s power to act in your best interest. Be especially careful with the words “always” and “never.” In any event, be sure to talk with your agent and others about your future healthcare and describe what you consider to be an acceptable “quality of life.”

When does my agent’s authority become effective?

Unless you make it effective immediately, Part 1, your Power of Attorney for Health Care becomes effective when your doctor certifies in writing that you lack the ability to understand the significant benefits, risks, and alternatives to proposed health care and to make and communicate your health care decisions.

Part 2, Your Instructions for Health Care, become effective when your doctor determines that you lack the capacity to make health care decisions.

You retain the primary authority for your healthcare decisions as long as you are able to make your wishes known.

Agent Limitations

Your agent will be bound by the current laws of Wyoming as they regard pregnancy and termination of pregnancies.

What if I change my mind?

So long as you have capacity to make your own decisions, you may revoke all or part of your advance health care directive, other than the designation of an agent in Part I, at any time and in any manner that communicates an intention to revoke. Any oral revocation should, as soon
as possible after the revocation, be documented in a signed and dated writing.
You may revoke the designation of your agent (in Part I) only by a signed and dated writing and
only as long as you have capacity to make your own decisions.

A decree of annulment, divorce, dissolution of marriage, or legal separation revokes the
designation of your spouse as agent, unless you otherwise specify in your advance health care
directive.

An advance health care directive that conflicts with an earlier directive revokes the earlier
directive to the extent of the conflict.

**Mental Health Issues**

These forms do not *expressly* address mental illness, although you can state your wishes and
grant authority to your agent regarding mental health issues. The National Resource Center on
Psychiatric Advance Directives maintains a website ([https://nrc-pad.org/](https://nrc-pad.org/)) with links to each
state’s psychiatric advance directive forms. If you would like to make more detailed advance
care plans regarding mental illness, you could talk to your physician and an attorney about a
durable power of attorney tailored to your needs.

**What other important facts should I know?**

Be aware that your advance directive will not be effective in the event of a medical emergency,
except to identify your agent. Ambulance and hospital emergency department personnel are
required to provide cardiopulmonary resuscitation (CPR) unless you have a separate physician’s
order, which are typically called “prehospital medical care directives” or “do not resuscitate
orders.” DNR forms may be obtained from your state health department or department of aging
([https://www.hhs.gov/aging/state-resources/index.html](https://www.hhs.gov/aging/state-resources/index.html)). Another form of orders regarding CPR
and other treatments are state-specific POLST (portable orders for life sustaining treatment)
([https://polst.org/form-patients/](https://polst.org/form-patients/)). Both a POLST and a DNR form MUST be signed by a
healthcare provider and MUST be presented to the emergency responders when they arrive.
These directives instruct ambulance and hospital emergency personnel not to attempt CPR (or
to stop it if it has begun) if your heart or breathing should stop.
